Technologies To The People®

Street Access Machine®

Technologies to the People® ist ein gemeinnütziges Unternehmen, das mittellose Personen den Zugang zu neuen Technologien ermöglicht und somit den Eintritt in die Informationsgesellschaft erleichtert. Die wichtigsten Produkte der Organisation sind die Street Access Machine®, die Recovery Card®, der Personal Folkcomputer® und die Internet Street Access Machine®.

Technologies to the People® is a non-profit-making organization that provides the destitute with access to the new technologies and thus facilitates their entry to the information society. The organization's major products are the Street Access Machine®, the Recovery Card®, the Personal Folkcomputer® and the Internet Street Access Machine®.

Technologies to the People® richtet sich an die Bevölkerung der sogenannten Dritten Welt sowie an Obdachlose, Waisen, Vertriebene, Randgruppen, junge Ausreißer, Immigranten, Alkoholiker, Drogenabhängige, Arbeitslose, mental Dysfunktionale und andere Kategorien "Unerwünschter", an Personen ohne sozialen Anschluss und solche, die keinen sicheren Ort zum Leben finden können, an alle, die betteln müssen, um zu überleben. Technologies to the People® ist für Personen, die keinen Zugang zur neuen Informationsgesellschaft und zu den neuen Technologien haben, für all diejenigen, die in neu- und andersartigen Grenzen leben. Technologies to the People® will ihnen den Zugang zur Informationsgesellschaft erleichtern. Technologies to the People® will mehr Personen miteinander vernetzen. Technologies to the People® hat die Street Access Machine® speziell für diese Randgruppen entwickelt und hergestellt. Sie kann mit allen Kreditkarten (Cybercash) benutzt werden. Kreditkarten sind überall willkommen-jetzt mit der Street Access Machine® nur anzuschließen, und Betteln wird nie wieder ein Problem sein. Derjenige, der einer bedürftigen Person Geld spenden will, gibt einfach seine Kreditkarte und bezeichnet die Höhe des Betrages. Danach kann der Bedürftige an einem Geldautomaten das Geld mit der Recovery Card® und seinem persönlichen Passwort abheben. Einfach und zinsfrei. Voller Kreditkartenservice für alle.

Technologies to the People® is aimed at people in the so-called Third World as well as at the homeless, orphaned, expatriated or unemployed, at fringe groups, runaways, immigrants, alcoholics, drug addicts, people suffering from mental dysfunctions and any other categories of "undesirables", at all those without social ties and unable to find a safe place to live, at all those who have to beg in order to survive. Technologies to the People® is for people denied access to the new information society and new technologies, for all those living in the confines of new and alien borders. Technologies to the People® wants to facilitate your access to the information society. Technologies to the People® wants more people to be networked. Technologies to the People® developed and manufactured the Street Access Machine® specifically for the fringe groups named above. The machine can be used 24 hours-a-day with all credit cards (cybercash). With the Street Access Machine®, credit cards are now welcome everywhere - including the street. All you need to do is install a Street Access Machine® and problems with begging will be a thing of the past. Those wishing to donate money to the needy simply present a credit card and stipulate the sum they are willing to part with. The destitute can withdraw the money from a cash dispenser using their Recovery Card® in conjunction with a personal password. Simple to use and interest-free. Allround credit-card service for one and for all.

Die Street Access Machine® der Technologies to the People® bringt Sie online.

Go on-line with the Street Access Machine® by Technologies to the People®.

Jetzt sind Kreditkarten auch auf der Straße willkommen.

The credit card has finally made it onto the streets.

Holen Sie sich jetzt ihre Street Access Machine® und ihre Recovery Card® mit ihrem persönlichen Passwort von Technologies to the People®.

Pick up your Street Access Machine® and your Recovery Card® with your personal password from Technologies to the People® now!

All-round credit card service for one and for all.

Technologies To The People® se dirige a las personas del llamado Tercer Mundo, así como a los “sin techo”, a los huérfanos, desterrados o desempleados, a los grupos marginales, fugitivos, inmigrantes, alcohólicos, drogadictos, a los que sufren discapacidades mentales y a todas las restantes categorías de “indeseables”, a todos aquellos desprovistos de vínculos sociales e incapaces de encontrar un lugar seguro para vivir, a todos los que se ven obligados a mendigar para poder sobrevivir. Technologies To The People® se ha creado para aquellos a quienes se les niega el acceso a la nueva sociedad de la información y a las nuevas tecnologías, a todos los que viven en los confines de nuevas y extrañas fronteras. Technologies To The People® quiere facilitarte el acceso a la sociedad de la información. Technologies To The People® quiere conectar a un mayor número de personas. Technologies To The People® ha desarrollado y fabricado la iStreet Access Machine® específicamente para todos aquellos grupos marginales previamente citados. La máquina puede ser utilizada 24 horas al día, y admite todas las tarjetas de crédito (dinero electrónico). Con la iStreet Access Machine® las tarjetas de crédito ya son aceptadas en todas partes, incluyendo la calle. Sólo tienes que instalar una iStreet Access Machine® y los problemas con la mendicidad serán cosa del pasado. Quienes deseen donar dinero a los necesitados tan sólo tendrán que presentar una tarjeta de crédito, y estipular el importe a entregar. Los indigentes podrán retirar el dinero de un cajero automático utilizando su Recovery Card®, introduciendo su código secreto. Fácil de usar y sin intereses bancarios. Llega la completa disponibilidad del servicio de las tarjetas de crédito para todos.
