**War on the Internet**  
Computer hackers who break into computers are called "hackers". Some hackers use the Internet to help their friends. The name of the Internet is changing, and it's becoming...

A grid of numerous small printed images or documents pinned to the wall, likely related to the 'War on the Internet' theme.

A vertical column of larger printed images or documents pinned to the wall, showing various scenes and possibly related to the 'War on the Internet' theme.

**WE CAN HELP**

A wooden table with various electronic components, including a power supply, a fan, and other hardware, along with a desk lamp.

War on the Internet

War on the Internet

THE COMMENTARY 1998  
**War on the Internet**  
The United States has a long history of surveillance, but the Internet has made it easier than ever to track and control the flow of information.
